A Terrible Holocaust.

KALAMAZOO, April 30.—The poor house of Van Buren Co., located near Hartford, Mich., burned last night and fifteen or sixteen inmates lost their lives in the flames. The loss on the building is \$10,000.

LATER.

The county house of Van Buren county, located near Hartford, thirty miles west of here, burned to the ground at two o'clock this morning, and fourteen inmates perished in the flames.

Chicago Record.

CHICAGO, April 30.—Among the buildings burned in the Englewood fire this morning was the Sherwood house, a frame structure through which the flames spread so rapidly that the guests had to leap from the upper stories in their night clothes. There was no loss of life, however. The buildings destroyed are all frame, and the loss is not exceeding \$15,000.

The Cattle Disease.

WASHINGTON, Pa., April 30.—State Veterinary Surgeon Bridge sent by Governor Pattison to examine the cattle said to be attacked with pleuro-pneumonia, says the disease is a catarrhal affection and not pleuro-pneumonia. In three cases that proved fatal the disease had reached the lungs and the cattle doubtless could have been saved had the true nature of the illness been known.

A Terrible Explosion.

HAVANA, April 30.—Yesterday afternoon the whole city was shaken by a terrible concussion. The streets were immediately filled with frightened people, who believed that the city had been visited by an earthquake. It soon became known, however, that a powder magazine at San Jose, adjacent to the arsenal, in which was stored a large number of grenades and shells, had exploded. The force of the explosion took the direction of the gas works, and all the gas holders of the Havana gas-light company, and all but one of those of the old company, were broken. The second shock was heavier than the first, and was caused by an explosion of gas.

It is impossible yet to say how many persons were killed or wounded. Several bodies have already been found. It is known that there were in the magazine a detachment of twenty soldiers and an artillery officer, who had been occupied several days in removing powder. The military hospital, the San Ambrosio arsenal, and other buildings in the neighborhood suffered the most damage. In Havana, balconies, windows and shutters in nearly every street were shattered.

Republican Conventions.

Boston, April 30.—The state republican convention temporarily organized by selecting H. C. Lodge as chairman. There is a full attendance. John D. Long, who was introduced as permanent president, addressed the convention, outlining the coming canvass and discussing the issues of the day in their bearings upon the two great political parties.

The chair stated in his address that there had been a pronounced sentiment in the state favoring the nomination of the senator from Vermont, and that the mass of the delegation favored Edmunds and Lincoln. The allusion to Edmunds created much applause.

CONCORD, N. H., April 30.—The republican state convention organized, with B. F. Prescott as president.

BANGOR, Me., April 30.—The republican state convention organized, with Orville D. Baker as president.

DES MOINES, Ia., April 30.—The state republican convention, being held in the opera house in this city, met and organized by selecting Ex-Gov. Wilden, of Monroe, as temporary chairman. After the appointment of committees the convention adjourned until two p. m.

RAVENNA, Wis., April 30.—The republican state convention was called to order at 12 o'clock. Thomas W. Spencer, of Fond du Lac, was chosen temporary chairman, and the convention adjourned until 2 p. m.

MONTPELIER, Vt., April 30.—The republican state convention organized by electing John M. Tyler as president, who favors Edmunds and Lincoln, and who asked the convention to endorse the administration of Arthur. Delegates-at-large to Chicago were elected.

PITTSBURGH, April 30.—The colored interstate conference re-convened at 10:30 this morning, and after some important routine business, George G. Downing, of Rhode Island, presented resolutions for the organization of an independent movement that the republican and democratic managers have not, as a rule, respected the rights and proper feeling of the colored citizens.

Congressional.

WASHINGTON, April 30.—In the senate Harris, of the committee on military affairs, reported favorably on the bill authorizing the secretary of war to adjust and settle the account of arms, ammunition and accoutrements between the territory of Montana and the United States. Placed on the calendar.

The senate then proceeded with the consideration of the bills on the calendar.

HOUSE.

The joint resolution passed authorizing the secretary of war to loan tents, etc., to soldiers' reunions, and to grant condemned cannon for monumental purposes on proper application.

The morning hour was dispensed with and the house went into a committee of the whole, with Cox, of N. Y., in the chair, on the tariff bill. Dingley controverted the proposition laid down by Cox, Hurd and others, that the decline in American commerce was the result of a protective tariff.

He Relieved the Sheriff.

CINCINNATI, April 30.—Allen Dugalls, one of the parties charged with the murder of the Taylor family at Avondale last winter, hung himself in the county jail this morning.

Re-elected.

CHICAGO, April 30.—At the annual meeting of the stockholders of the Chicago, Burlington and Quincy railroad the old board of directors were re-elected.

NEW YORK, April 30.—The score at noon stood: Rowell, 292; Fitzgerald, 280; Day, 217; Noremac, 262; Vint, 257; Herty, 261; Elson, 244. Thompson, withdrawn; Netaw, 128; Panchot, 251.

A Boom for Benny.

WORCESTER, Mass., April 30.—The

democratic state convention was called to order by Noah Plympton, of the state central committee, who made an address eulogizing General Butler and arraiguing the republican party. Edward Avery was chosen permanent chairman, who announced that the convention was ready for business. A committee to receive the ballots for four delegates at large was appointed.

The convention passed a resolution endorsing Gen. Butler for the presidency.

FLEEING FROM DEATH.

The Adams County Mob Hastily Organized to Lynch Richards, Who Is Driven From the Village by Sheriff McGriff—The Mob Threatens to Come to Fort Wayne.

This morning Sheriff McGriff took Fred Richards and young Smith from this city to Decatur for a preliminary hearing on the charge of murdering Amos Backensto. The testimony against Richards was so conclusive and revolting that public indignation was in an instant aroused and a mad mob of 300 people hastily organized to lynch him. Sheriff McGriff sent a messenger for his best team of horses and a light buggy. When the vehicle arrived the sheriff hustled Richards into it and at the point of his revolver, threatened to kill the first man who interfered with him. The crowd began to swell rapidly, and amid wild shouts of "Lynch him!" "Kill him!" "Shoot the horses!" etc., Sheriff McGriff whipped up the animals and dashed out of the town towards the railroad. Shots were fired at Richards, but none took effect. The horses were shot at and have three flesh wounds made by pistol balls.

Reaching the Richmond road, the sheriff put his men on a south-bound engine, detached from a train by special orders of Superintendent O'Rourke. The engine was backed up to Hoagland, where McGriff left Richards in charge of the sheriff of Jay county, who accompanied him. McGriff then returned to Decatur and sent Smith to the Wells county jail. The feeling is not severe against Smith, who is a boy.

Sheriff McGriff returned to Hoagland on the afternoon train, and brought Richards on here from Hoagland. Richards is a big burly fellow, and acknowledges that he had a narrow escape for his life. Robert Stratton is counsel for Richards, against whom the evidence is clinching.

The mob is boisterous and entirely beyond control of the officers. After McGriff got away with the prisoner a meeting was held outside of town and a resolution passed in favor of coming to Fort Wayne, 500 strong, to demand Richards from Sheriff Schiefer and then lynch him. The officers here are prepared against any such raids.

At Geneva this afternoon the farmers arrested a tramp suspected of being implicated in the Backensto murder. Sheriff McGriff is after two other citizens of Adams county, who skipped out to avoid arrest. McGriff says Richards was the leader in the crime.

The New Percentages Awarded.

The new award of percentages made by Messrs. Charles Francis Adams, jr., Hugh Riddle and John C. Gault, arbitrators of the eastern trunk lines, relative to shipments of freight from Chicago to the east, have been made public. They are as follows:
Dead freight percentages—Michigan Central, 19; Lake Shore, 17; Pittsburg, Fort Wayne and Chicago, 19.50; Chicago, St. Louis and Pittsburg, 8; Chicago and Grand Trunk, 11; Chicago and Atlantic, 10.50; New York, Chicago and St. Louis, 8; Baltimore and Ohio, 7.

Live stock percentages—Michigan Central, 17; Lake Shore, 26; Pittsburg, Fort Wayne and Chicago, 14; Chicago, St. Louis and Pittsburg, 8; Chicago and Grand Trunk, 11; Chicago and Atlantic, 10; New York, Chicago and St. Louis, 7.50; Baltimore and Ohio, 5.50.

John Wessel will not run for councilman in the seventh ward. Mr. and Mrs. Wessel leave in a few weeks for a visit to Germany. They will remain abroad two months.

George P. Gordon, the Pittsburg baggage master, is a candidate for council in the Seventh ward. Mr. Gordon is an intelligent, honorable man, a property holder and a safe man to send to the municipal body.

The trial of Charles Butler, for murdering his wife at Piercelton, began at Columbus City to-day, before Judge Van Long. Sicksafoose and McNagney are prosecuting Butler, and Blackburn, of Cincinnati, and two or three other attorneys are defending him. Butler's father is in attendance and pays Blackburn, who is a famous criminal lawyer, a big sum to conduct the case.

Quick Relief!

When a man has suffered from Rheumatism only a little while, and is relieved from his pain, he is happy and delighted. But suppose he has suffered for more than a third of a century.

Abba Ginn, of Vale, Iowa, writes: "After twenty years of suffering from Rheumatism, I have been cured by Dr. T. J. Dills' EYE AND EAR. I have been cured of my Rheumatism, and I am now as well as I have been for thirty years with Rheumatism."

Mrs. A. B. Baker, of Chicago, had rheumatic pains in her back for fifteen years, and Mr. Baker had been the victim of Rheumatism until his head was drawn down over his left shoulder. Mr. Baker writes: "Half a bottle of Dr. T. J. Dills' EYE AND EAR cured me as good as new. My wife has taken the other half, and has not complained of her back since. She says her back never was so free from pain and aches as it has been since she has taken the EYE AND EAR."

There are many people who think that because they have suffered so long, and have tried so many medicines in vain, they must "suffer on their three score years." But you see what Dr. T. J. Dills' EYE AND EAR has done.

However Old your Cues; However Severe your Pains; However Great your Disappointments, Try Athlorphos.

If you cannot get Athlorphos of your druggist, we will send it express paid, on receipt of regular price—one dollar per bottle. We wonder that you buy it from your druggist, but if he won't, it is not so far from him to send him to Dr. T. J. Dills, 112 Wall St., New York.

OFFICIAL PAPER COUNTY AND CITY.

A Red Bluff, Cal., Chinaman has become so progressive that he wears a plug hat.

Mrs. Clarissa Raymond, of Milton, Connecticut, has just celebrated her 102d birthday.

The Cleveland (Ohio) Catholic University lists the names of Senators Bayard and McDonald for president and vice president.

A bill has been introduced in the house providing that it shall be unlawful to collect fare on any conveyance throughout the United States when a person is unable to obtain a seat. If this bill becomes a law it will develop more gallantry on board a crowded train or street car than has ever been known. We shiver when we think how humble the old men will become as they jump up to give a lady, with three handbags and a pet poodle, plenty of room.

It seems strange that newspapers and newspaper correspondents will not let Mrs. Fred Douglas alone. She is now the best known woman in the country. She has gained notoriety at the first venture. It is to be hoped that she and Freddie may live in peace and harmony, and that their lives may be unclouded by all this rabble about them. There are a few persons in Indiana who might be able to give the old man a pointer as to the lady's temperament, which might help to keep the silver lining of the clouds undisturbed. She was at one time an Indiana schoolman.

GRAND RAPIDS Democrat: "The Ohio republicans denounce the reduction of the tariff on wool. It is now in order for the Ohio republicans to explain why fifty millions of people should pay fancy prices for their woolen garments in order that a few buckeye farmers may make larger profits off their sheep farms. Perhaps the mechanics and laborers of the country generally are sufficiently generous to contribute several dollars for the benefit of the Ohio farmers every time they buy a suit of clothes, but the chances are that they will sit down on the whole system and put their dollars where they will do the most good—in their own families."

GEORGE ELLIOTT, a delegate from this state to the colored conference at Pittsburgh, stated that he was in favor of McDonald for president, and that the democratic party has done more for the colored race in the past six months than the republican party in ten years. Major Wheeler, of Chicago, said: "The republican party have made a division of things we are tired of. It has given the bloody shirt to the negro and the old bug to the veterans, while the politicians have taken the appropriations." The colored people begin to see through the hypocritical assertions and promises of the republican party. They have kept their faith only in broken promises.

Ohio democratic editors are unkind and ungrateful enough to keep harping about the little unpleasant incidents in the republican party in this state. They watch the contest between the great men and admire the many-cornered scramble as much as if they lived here. One editor stirs up the war again in the following very unceremonious manner:

Hoosier republicans are unfortunate in having two presidential candidates—Graham and Harrison. How happy they "would be with either were other dear charmer away!" Blaine is not going to have quite enough votes to nominate him on the first ballot, and the fact is just dawning upon their benighted minds that an Indiana man now stands a better show for the nomination than any one, Blaine not excepted. They know it would be suicide to enter both their candidates, and which one to withdraw is the present much agitated question. Evidently the lot of the president maker is not a happy one.

SAMARITAN NERVE

"You claim too much for SAMARITAN NERVE," says a skeptic. "How can one medicine be specific for Epilepsy, Dizziness, Vertigo, Headache, Neuralgia, Rheumatism, Spasms, or Scintillating Weakness, and fifty other complaints?" We claim its specificity, simply because the virus of all diseases arises from the blood. Its Nerve, Resolvent, and Tonic properties meet all the conditions herein referred to. It is known world wide as

It quiets and composes the patient—not by the introduction of opiates and drastic cathartics, but by the restoration of activity to the stomach and nervous system, whereby the brain is relieved of morbid influences, which are created by the causes above referred to.

To Clergymen, Lawyers, Literary men, Merchants, Bankers, Ladies and all those whose sedentary employment causes nervous prostration, irregularities of the blood, stomach, bowels or kidneys or who require a nerve tonic, appetizer or stimulant, SAMARITAN NERVE is invaluable. Meeting of the Council to Act on Water Supply Question.
The city council met last night in special session to act on the question of a water supply. After the transaction of routine business the following report from City Civil Engineer Straughan was read:
I herewith submit an estimate for the cost of extending the "inlet" pipe for the water works to a point 500 feet above the Centlivre brewery, by a route along the margin of the St. Joseph river, as follows:
1,350 cubic yards excavation and re-
filling at 40 cents.....\$ 540 00
and fasten pipe laid complete \$5.10
per foot.....2,040 00
\$2,580 00
To which add former estimate for the
2,800 feet, in all \$390 feet.....\$18,074 00
Total cost of the brewery line.....\$20,654 00
The above not including right of way
nor right of water.
If made of brick instead of iron, a saving
of \$6,030. If made of cement instead
of iron, a saving of \$8,160.
The report was discussed by Councilmen Hamilton, Boltz, Martin and others, but to bring the matter to a vote Councilman Vordermark introduced the following resolution:
Resolved, That the committee on water works be and they are hereby instructed to prepare the necessary resolution ordering out the commissioners for the purpose of condemning a route leading from the water works basin to a point in the St. Joe river, about 800 feet above the Centlivre brewery, for the purpose of furnishing the city with pure and wholesome water.
The resolution called from Mr. Boltz a vigorous condemnation of the men who had already compelled the expenditure of thousands of dollars on a speculative water supply, and he believed it now time to get a reliable supply.
It was then understood that as Mr. Straughan had estimated the material cost of a pipe 500 feet above the brewery to be \$20,654, the laying of a pipe 800 feet above, the right away and the water right, would altogether foot up a cost of from \$60,000 to \$75,000, and then the water would be as unclean and filthy as it is below the brewery. For these reasons Mr. Vordermark's resolution was defeated by a vote of 8 to 6. Now the question stands as it has. No one asked the council to buy the canal and no canal ring is visible, a fact which a few solid publications seem desirous of impressing on the minds of their few readers.

In regard to the Use of Gasoline Stoves.
Office of the Fort Wayne Board of Underwriters, April 28, 1884.
All of the agents composing this board have received the following instructions from their companies:
To the Agents—
The losses on and in buildings caused by using gasoline as a light or as fuel have been so extremely heavy that the companies generally have been compelled to prohibit altogether the use of gasoline as a light (except when vapor is generated outside and introduced to the premises insured through gas pipes), and make an additional charge apply to risks wherein gasoline is used as a fuel in dwelling houses.
The charges and rules where gasoline is used as a fuel, are as follows:
Charges.—Policies of \$1,000, or less, \$1 per year; policies above \$1,000, 10 cents per \$100.
Term Policies.—Add at same ratio as for other term insurance, but in no case shall the premium be less than \$3 for three years, nor less than \$3 for five years.
When more than one stove is used in a dwelling, if by an additional tenant or tenants, multiply the rate for one stove by the number of tenants using stoves.
These rates also apply to buildings of single occupancy used in part for dwellings where a gasoline stove is used for culinary purposes.
SHORT RATES.
One month, 5-10 of annual rate.
Two months, 6-10 of annual rate.
Three months, 7-10 of annual rate.
Four months, 8-10 of annual rate.
For a fraction of a month charge for a full month.
For more than four months, charge the annual rate.
Where gasoline stoves are in mercantile or manufacturing establishments, same form of permit must be required, and an extra charge be made of not less than 25 cents per \$100 for each stove in use. The extra charge to apply alike to building and contents.
We prohibit the storage of more than ten gallons of gasoline, or any light products of petroleum, in any store building other than in oil or gasoline warehouses, and same shall be handled by daylight only, handling of unbroken packages closed, excepted.

Do you wish freedom from aches, pains, sores, etc.? Then purify the blood strengthen the urinary and digestive organs, build up your broken down constitution by using Dr. Cassatt's Yellow Dock and Sarsaparilla. It is gratifying to know that among intelligent communities this simple, harmless, yet effective remedy sells faster than the many humbug bitters, iron medicines and pretended kidney cures, all of which so rapidly weaken and ruin the stomach, liver, bowels and kidneys by exciting these delicate organs to unnatural activity.

Certain druggists begin to complain that the only cough remedy they can now sell is Dr. Wistar's Balsam of Wild Cherry. This goes to prove that intelligent people are determined to get the best remedy for coughs, colds and consumption, and will not take a substitute.

The hapless are never so helpless as when stricken by rheumatism. It tortures the body, and palsies the hand that should be winning bread. A remedy like Athlophoros—speedy, sure and not injurious to the system—is a powerful aid to the ministrations of those who move about bearing balm to the afflicted. Rev. J. E. Senzles, pastor Willett Street M. E. church, N. Y., writes: "Have not only used Athlophoros myself, but have administered it to those who were helpless with inflammatory rheumatism. In twenty-four hours they have been free from pain and attending to their duties."

The city of Peoria, Illinois, has sued the Wabash road for \$25,000. The suit is brought against the road under its various names. It seems that on July 23, 1884, Peoria voted \$100,000 in aid of the Toledo, Peoria and Western, receiving therefor one thousand shares of the common stock of this company. The old road was sold out in 1877, the Toledo, Peoria and Western succeeding it. The certificates owned by the city of Peoria were never considered of any value whatever, and it was thought that the entire \$100,000 voted was hopelessly lost; but it is now believed that about one-quarter of that amount can be recovered.

Concentrate Vitality.

All exponents, to radically cure, must be innocent. The art consists in continuing their use until matters in the system contrary to health are removed. Health finds happiness in the mere sense of existence.

Brandreth's Pills stimulate the blood so as to enable nature to throw off all morbid humors, and cure disease, no matter by what name it may be called.

The secret of recruiting the vital principle is discovered in Brandreth's Pills, because they remove what holds it in check. It is believed that they possess the elements of vitality. Heat, healthy animal warmth, is certainly increased by the use of this wonderful medicine. Provided the great organs are not irreparably injured, there is no disease Brandreth's Pills will not cure. The true art of healing is to assist nature to throw off disease—to concentrate, as it were, the whole vitality of the system to eject the enemy that has fastened on a part.

Get Brandreth's Pills! Be put off with none other, and follow the printed directions and health will surely bless you.
